COMPENSATION

What Shall the Receiver and Counsel be Paid.

THE QUESTION BOBS UP AGAIN

Mr. Lawrence Describes His Duties and Thinks He Should Get \$300 a Month-Judge Marghall is Satisfied With \$150.

The hearing in regard to the compensa tion to be allowed Receiver Lawrence and his attorney, was beld before Special Examiner Bache yesterday aftesnoon, Varian appearing for the government and Judge Marshall for the receiver. F. E. Mc Gurren was sworn as reporter and

RECEIVER LAWRENCE was called. He testified: I was appointed receiver on July 19, 1890, and have had care of the fund since then. My duties have been to look after the sheep, collect rent, etc. The bands of sheep have been conetc. The bands of sheep have been con-miderably scattered and some trouble has been experienced in getting them together. The real estate has been carefully looked after. The cash turned over to me amounted to \$250,000 and the 24,000 head of sheep were sold for \$40,000. The money on hand, which was drawing no interest when I received it, has been placed in bank, and the revenue received from it amounts to about \$12,000 a year.

THE GROSS REVENUE iust year was about \$22,000. The care of these interests have required more or less time and attention, and there has been time and attention, and inter has been considerable responsibility connected with it. In my judgment \$300 per month would be a reasonable compensation for my services. I was required to give a bond in the sum of \$30,000. I have

MADE NOTHING WHATEVER

for myself from the fund.

To Mr. Varian, Receiver Lawrence testified: The money is loaned out, but not by order of the court, and I am held responsible for it. The property in my hands has been producing ever since I took possession of it. The real property was leased when I was appointed, but I have made new leases. made new leases.

THERMONEY

amounts to \$320,000, which draws 4 per cent interest, except \$5,000 which I hold for current expenses. The care of the property does not occupy all of my time, but I have a great deal to look after. JUDGE J. A. MARSHALL

testified that he assumed the duties of attorney for the receiver in August 1890, and since that time had been occupied more or less with the business. He had commenced one suit here for the receiver, appeared in some others, and had also been engaged in court in Ogden on legal business connected with the receivership. In addition to this, he had held consultations with the receiver and advised him on tions with the receiver and advised him on legal points arising. He had also at times conferred with the officers of the govern-ment with regard to the management of

"As to any specific amount of compensa-tion," said Mr. Marshall, "I feel some deli-cacy in making a claim. The compensation allowed the attorney of Receiver Dyer was \$150 dellars a month, and I consider A FAIR COMPENSATION.

I have received nothing whatever thus far in the way of compensation, so that the amount mentioned would include a re-

testined—I have been practicing here for over six years, and am somewhat familiar with the fees paid attorneys. I have heard Mr. Marshall's statement as to his duties, and my judgment is that such services would be reasonably worth at least \$250 a MR. VARIAN IS SATISFIED. Mr. Varian—That is all, I believe. I shall not contest the claim of Mr. Lawrence for \$300 a month, nor of Judge Marshall for \$150 a month. The referee, however, will have to determine the matter according to the contest of the cont

ing to his own judgment. MR. BACHE WILL REPORT ON MONDAY.

This closed the hearing, and Mr. Bache expects to file his report with the supreme court on Monday next.

From a letter received from Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my Lungs, cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. NEW YEAR'S MORNING

963 BOYS OF SALT LAKE CITY

On November the 2d, Goldsmith's advertised that they would give every Boy who purchased a suit or overcoat of them up to December 31st, a present on New Year's Morning, and you can rest assured that Goldsmith's kept their word to the letter. It was a great sight to see the crowd of Boys assembled outside of our store as early as 9 o'clock, although the time advertised was 10 o'clock for the doors to be opened for the little fellows to receive their present. When the hour arrived Srgt. Donovan and his men thought it best to avoid accident to admit them 20 at a time, which proved a success. When the little fellows saw the beautiful presents, which consisted of every kind of Toy, Carts, Sleighs, Books, Games, Scarfs, Handkerchiefs and a score of other suitable gifts, you should have seen the little fellows' eyes open and the smiles of joy on their faces; but when handed a Box of Candy as well, of the very finest that Arbogast can produce, the Boys fairly skipped, jumped and shouted with delight, and went home with a light heart and all were wishing Goldsmith & Co. prosperity and a Happy New Year.

Goldsmith & Co. beg respectfully to return their thanks for shores of the Great Salt Lake. Orders received the response and confidence the public had and have in their advertisement, and do assure them that it was beyond their own anticipation. The actual number of coupons issued was 1087, being 87 more than they expected, therefore we have on hand 124 presents waiting for the Boys who hold our coupons to call or send for them, and we hope that they will do so as early as

Ever hear of the Encyclopædia Britannica? Probably. If not, any literary man or librarian will tell you that it is universally accepted as the standard Encyclopædia in the English language. It ought to be. It was originally published in 1771, and since that time has passed through nine editions, the latest of which was compiled fifteen years ago. In its lifetime of a hundred years and more it has gathered to itself the choicest work of the best writers of each successive generation, sparing no expense to secure from every expert in every department of human knowledge the best he was capable of giving. On the preparation of its various editions it has spent more than three millions sterling, and the cost of the latest or ninth edition alone was not less than ONE MILLION DOLLARS.

But the Encyclopædia Britannica has three defects which detract from its usefulness in an American family. In the first place, part of its latest edition is now fifteen years-or half a generation-behind the age. In the next place, it makes no biographical mention of any persons who were living when it was compiled, no matter how famous they may have been; General Grant, even, is left out. And, lastly, the Encyclopædia Britannica is an English work, compiled for the use of Englishmen in England, and, as is only natural under such circumstances, it treats all subjects of peculiarly English interest exhaustively, and those of purely American interest with far less than the subject warrants. Three pages to an English County and a column or less to an American State is about the proportion.

The Americanized Encyclopædia Britannica

Contains every subject the Encyclopædia Britannica does, with the above defects carefully amended. The entire work has been revised to date, and a series of ninety-six new maps inserted; over 4,000 new biographies have been added, including every person of prominence in the entire world, and the Encyclopædia has been Americanized by reducing the space allotted to peculiarly English subjects and by enlarging that devoted to topics of purely American interests The result is, we honestly consider, the Best Encyclopædia in the World to day, and that is saying a great deal.

EIGHT CENTS DAILY WILL SECURE YOU THIS GREAT WORK OUR PROPOSITION.

We will deliver at your address a complete set of the Americanized Encyclopædia Britannica on payment of \$5.00, and your signing a contract in which you agree to pay us \$2.50 a month for ten months, in all \$30.00.

It is distinctly understood that this offer is made only by giving an order for one year's subscription to this paper at the regular subscription rates. The Encyclopædia cannot be obtained in any other manner at any price.
